your primary caregiver.

- Cultivation

Maine state law allows a patient (or their primary caregiver) home cultivation.

A patient (or their primary caregiver) may possess no more than six mature marijuana plants at one time.

A patient who elects to cultivate marijuana plants must keep the plants in an enclosed, locked facility.

In addition to the marijuana plants otherwise authorized under this paragraph, a primary caregiver may have harvested marijuana plants in varying stages of processing in order to ensure the primary caregiver is able to meet the needs of the primary's caregiver qualifying patients. As a guideline: 6 mature plants/ 12

in vegetative state.
